PERSONAL SUMMARY

A highly resourceful, innovative, and competent PHP developer with extensive experience in the layout, design and coding of websites specifically in PHP format. Possessing considerable knowledge of the development of web applications and scripts using PHP programming language and MySQL & SQL Server databases. Experienced in developing applications and solutions for a wide range of corporate, charity and public sector clients and having the enthusiasm and ambition to complete projects to the highest standard.

Looking for a suitable developer position with a ambitious & exciting company.

WORK EXPERIENCE

Web Design Company – Coventry

PHP DEVELOPER June 2008 - Present

Working with designers, Front End and project management staff to capture requirements for the functional elements of website projects. Also responsible for liaising with clients and ensuring that all work carried out complies with standards and guidelines.

Duties:

- Building PHP websites using PHP based frameworks.
- Planning and conducting cross-browser usability testing against W3C.
- Testing and validating work produced as part of the development process.
- Developing advanced database driven websites & systems including eCommerce.
- Back end development and maintenance of websites using PHP and MySQL.
- Developing compatible User Interface functionality using jQuery & other libraries.
- Developing web sites using MySQL, PHP, ASP.NET & other programming tools.
- Working in a data analyst role and with business intelligence applications.
- Documenting features, technical specifications & infrastructure requirements.
- Working with a multi-disciplinary team to convert business needs into technical specifications.

KEY SKILLS AND COMPETENCIES

- Ability to multi-task, react quickly to shifting priorities and meet deadlines.
- Proactive, confident and with a positive "can-do" attitude.
- Able to clearly communicate technical data to non technical colleagues and clients.
- Continuously monitoring industry trends, technologies and standards.
- Possessing all-round analysis and programming skills.
- Methodical yet creative & having a proven ability for efficient problem solving.
- Excellent attention to detail both front and back end.
- Solid web development experience using OOP, PHP, AJAX, MySQL, JavaScript, XML, HTML and CSS.
